

PRIVATE ONLINE TRAINING – 2021 PRICE LIST

Aqueous Solutions can draw on its extensive collection of courseware to configure a private workshop that meets your needs and present it at a time convenient for you and your colleagues. When you consider the value of employee time and efficiency, private instructor-led training can offer significant savings.

Each private workshop is presented in a hands-on instructor-led format via video link. The courses are delivered in half-day increments over the span of two to four days. A typical day involves three instructional units lasting about an hour each, with breaks between units, and hence lasts about 3½ hours.

The cost of a private online workshop in U.S. dollars is as shown:

	1-8 participants	Each additional participant
Two half days of instruction	\$3600	\$300
Three half days	\$4900	\$400
Four half days	\$5900	\$500

Please note the following:

- A few days in advance of the workshop, each participant will receive a 60-day license to The Geochemist's Workbench Professional® at no additional cost.
- We provide participants with pdf copies of the PowerPoint slides presented as well as a workbook to use for hands-on exercises.
- We will endeavor to meet at a convenient time in your home time zone, but all instruction needs to take place between 08:00 and 21:00 North American Central Time.
- We require **advance payment of at least 50%** of the quoted cost before instruction can begin.

Please contact sales@gwb.com for details and a price quote for a private workshop that meets your needs.
